

# Enclosures

- Telecom
- Wireless
- Cable
- Military
- 4G/5G

## Product Description

Battery enclosures designed to protect equipment in the harshest of environments. Weatherproof pad and pole mount enclosures and telecom cabinets ideal for housing rack mount equipment requiring environmental protection. Constructed to meet high-quality standards, including NEMA protection. Construction materials include .125 aircraft grade aluminum, stainless steel hardware, GR487 powder coat, and solar shield roof. Models available in several colors.

## Product Features

- **.090 (ENC-1000) or .125 (ENC-2000) Aircraft Grade Aluminum:** Outstanding corrosion resistance
- **NEMA Protection:** This enclosure protects against rain, sleet, snow, splashing water and damage from external ice formation
- **Stainless Steel Hardware:** We choose the highest quality materials to produce our enclosures. Type 304 stainless steel hardware will not rust in the field
- **GR487 Powder Coat:** Enclosures are powder coated and tested to the Telcordia GR487 spec for telecom enclosures
- **Power:** Pre-wired 20 Amp receptacles are a standard feature
- **Numbered Adjustable Equipment Racks:** 19" or 23"
- **Solar Shield Roof:** Includes a double wall roof to reduce the radiant heat and internal cooling requirements of the enclosure
- **Ground Terminal Strip:** 7 position aluminum strip
- **Locking:** Extremely secure, strong and impermeable. Lockable handles and hinges are made from Type 304 steel

ENC-1000

ENC-2000
