TPL-001-5 Compliance FAQs

What is it?

NERC Standard to ensure redundancy by eliminating single points of failure.

Who is it for?

All bulk power owners, operators, and users.

Can you be fined for non-compliance?

Yes, fines can be up to \$1,000,000 per day.

How can you achieve compliance?

- 2 batteries + 2 chargers
- 2 batteries + 1 BC-2500
- ★ 1 battery + 1 BC-2500 + 1 VIGILANT BMS

Timeline

June 2020

Implementation plan approved by FERC

July 2023

All new systems must be compliant (except P5)

July 2025

All existing systems must have a Corrective Action Plan (CAP) developed for compliance (including P5)

July 2029

TPL-001-5 is fully enforceable across all systems
