# SG-Ultra

Digital Hydrometer / Density Meter

Eagle Eye's SG-Ultra Digital Hydrometer / Density Meter measures the specific gravity, density and density-related values of your sample while showing the measured results in seconds. The results include sample identification, measurement unit, temperature correction coefficient, instrument identification and date & time. This easy to use portable handheld includes all required accessories to begin testing right out of the box!

Accuracy
99.999% accurate and meets CE compliance

Efficient and Safe
10 times faster and safer than conventional methods

Temperature
Measures specific gravity and temperature simultaneously

User-Controlled Sampling
Select from multiple units of measure to suit your needs or create custom requirements

Data Collection
Wireless communication infrared data interface for data exchange with a PC or export to a printer

Battery Life
90 hours of battery life

APPLICATIONS

- **Utility Testing**
- **Food and Beverage Testing**
- **Alcohol Testing**
- **Battery Testing**
- **Industrial Manufacturing Testing**
- **Quality Control Testing**

SG-ULTRA KIT

- SG-Ultra
- Sample Tube (5.625" x 1/8")
- IrDA Adapters
- SG-Ultra Management Software
- Carrying Case
- User Manual
